

Kärcher Cutter Walk-Behind Scrubber

Product Description

The Kärcher Cutter is a rugged floor scrubber that handles all cleaning jobs quickly, efficiently and with amazing maneuverability. It has our patented "Aqua-Mizer" system which saves up to 35% chemical and water usage, while supporting over two hours of continuous cleaning.

This machine features tool-free, easy access to brushes and squeegees. The batteries can be accessed with solution in either the fresh or dirty tanks, providing an incredible user-friendly experience. The ergonomic design of the machine greatly improves operator visibility, making the Kärcher Cutter one of the safest machines in the market.
