

Pacer 30

Wide-Area Vacuum

The Pacer 30 is the smart choice for fast, effective vacuuming of large carpeted areas. Its dual 1-HP vacuum motors provide impressive cleaning muscle in a single 30-inch (76.2 cm) pass.

- A unique vacuum muffling system, combined with extraordinary filtration make the Pacer 30 an exceptionally quiet wide-area vacuum.
- The large rear wheels and front swivel casters mean easy maneuverability.
- The Pacer 30's compact profile, adjustable handle, and self-propelling brush action make it easier and less tiring to use, compared to competitive vacuums.
- At a steady work pace, the Pacer 30 will cover 10,000 square feet (930 m²) of carpet per hour.
- The Pacer 30 is ideal for reception halls, meeting rooms, hotel hallways, airport terminals, or any other large areas that demand high-performance cleaning in a hurry.
- For above-the-floor cleaning tasks, the Pacer 30 can be ordered with a built-in tool kit. The tool kit features an on-board hose that stretches to 9.5 feet (2.9 m), a 2-piece wand, a crevice tool and a round brush.
