- Disc Motor (2) .75 HP each @ 180 rpm
- Equipped with on-board charger
- Weight with batteries: 472 lbs (169 kg)
- Includes: 7524 -15" Pad Drivers

The E30 ECO is a disc brush scrubber with a 30" cleaning path. It is a cost effective solution to large scrubbing needs. Advanced technology makes the E30 ECO a part of the innovative walk-behind scrubber line, the E Series. Easy-to-understand controls ensure that the machine is simple to operate. The compact and sleek design results in total operator comfort by focusing on ergonomics and providing an excellent line of sight of the area to be cleaned. The offset brush head gives the operator a greater view of all cleaning operations and the compact scrubber contains a large scrub head to allow for optimal cleaning performance. The adjustable handle and ergonomic hand bails offer superior handling and the traction drive speed can be adjusted with the turn of a dial. The E30 ECO contains an on-board charger. When the on-board charger is plugged in, the machine is not operable. The E30 ECO also features easy brush loading and unloading. A parabolic squeegee is standard. The squeegees are designed so that no operator adjustment is necessary.
