Compact Automatic Floor Scrubbers for Heavy Duty Cleaning Applications

Designed To Last ...

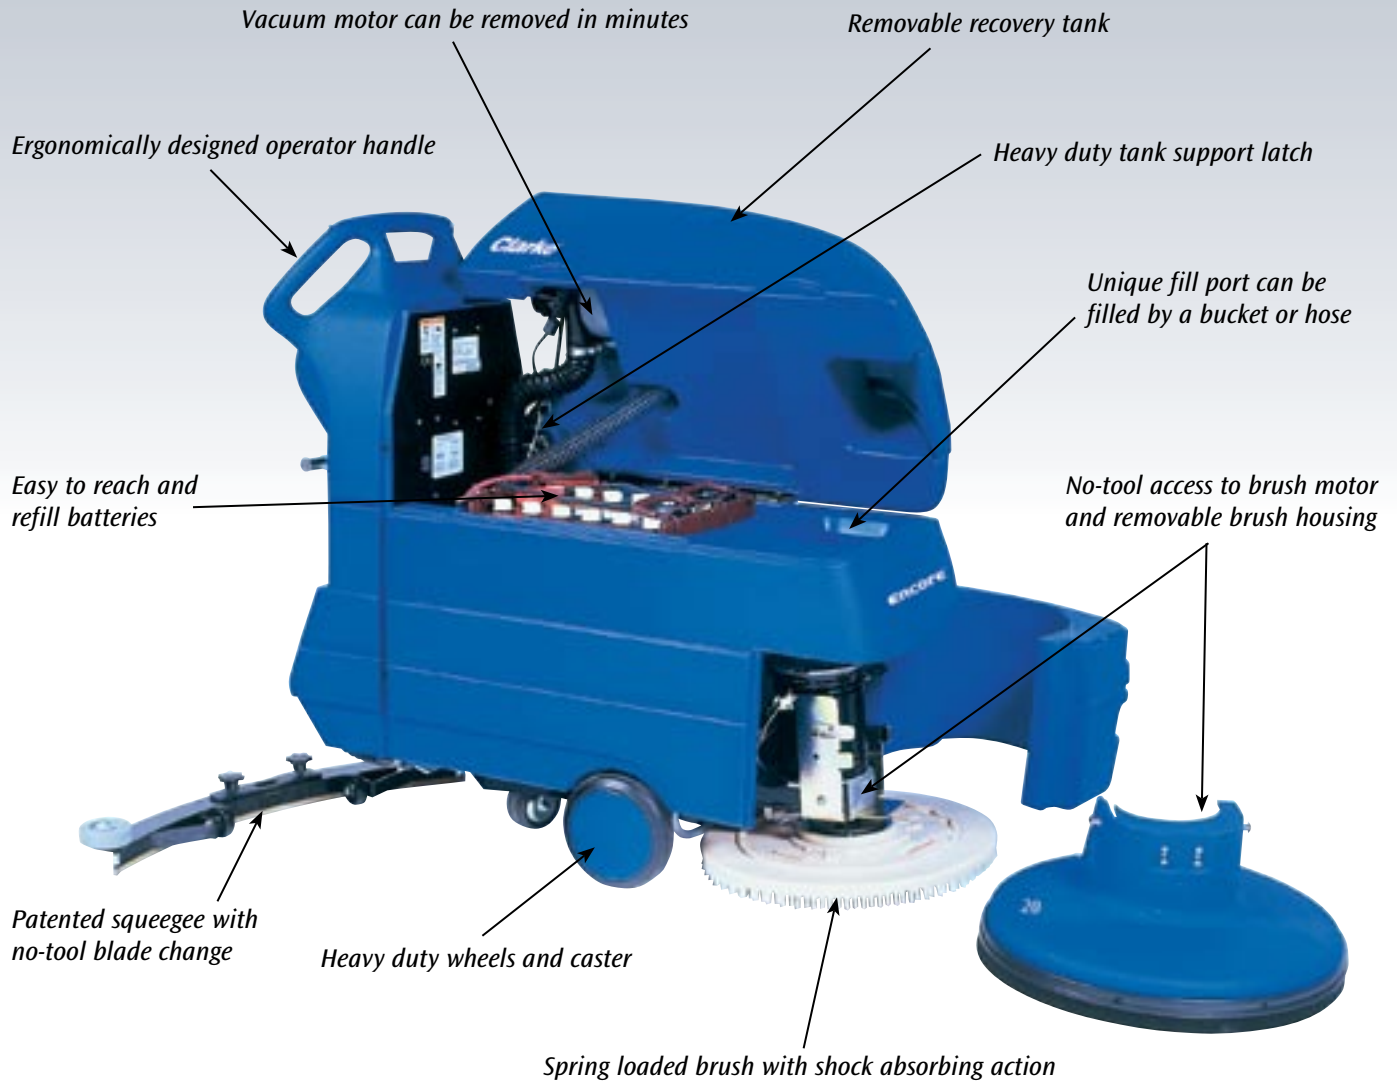

Encore compact autoscrubbers can be found cleaning hospitals, schools and even a variety of heavy industrial applications. This versatile unit is rugged and dependable, even in the harshest of conditions. After many years of use the Encore standard and luxury models still provide the greatest value in the industry.

Encore® Features Include:

- Heavy-duty Polydur® construction protects internal components.
- Reinforced floating scrub deck.
- Transaxle drive is standard on the luxury model for scrubbing inclines and ramps and offers a tremendous advantage when transporting the machine.
- Patented Accu-Track™ break-away squeegee prevents damage if accidentally hooked by a post or pallet. The connecting hose stays with the machine.
- Heavy duty rear caster absorb shocks from grouted or damaged floor surfaces.
- Optional brushes will increase cleaning effectiveness on rough concrete covered with grease and grime.
- Optional off-aisle spray tool and vac wand.
- Various battery pack options mean you only pay for the run time you need.

Service is a Breeze with Encore® Automatic Scrubbers

Operator controls feature electronic, infinitely variable, solution control that eliminates cables and linkages. Brush lift and squeegee lift handles are within easy reach. Circuit breakers, charger plug, and drain hoses are conveniently located.

Patented squeegee and footprint design provides perfectly dried floors even in the tightest of turns.

Weight	468 lbs. (212.3 kg) w/batteries	
Shipping Weight	607 lbs. (275.3 kg) w/batteries	

WHO USES THIS MACHINE?

- Cleaning contractors, in-house cleaning crews
- Schools
- Hospitals
- Government buildings
- Retail facilities

WHAT DOES IT DO BEST?

- Ideal for scrubbing in confined areas
- Reduces costs of hard floor cleaning

WHAT MAKES IT EASY TO USE?

- Ergonomically designed operator controls
- Highly maneuverable with excellent line-of-sight

WHAT ENHANCES ITS PRODUCTIVITY?

- Large solution and recovery tanks
- Adjustable brush pressure

WHAT ADDS TO ITS DURABILITY?

- Polydur® means strength (all poly parts)
- Long vacuum life
- Unmatched warranty

WHAT ARE THE SAFETY FEATURES?

- Recovery float shut-off prevents recovery tank overflow
- Key switch prevents unauthorized use

WHAT ARE THE OPTIONAL FEATURES?

- Parking brake
- Off-aisle wand, hoses and floor tools
- Maintenance-free 105 AH batteries
- ESP (recycling feature)
- Various brushes and floor pads
