INNOVATIVE EQUIPMENT SOLUTIONS

Windsor introduces a new direction for your total cleaning needs. Daily cleaning will completely remove soils and bacteria, leaving your facility "Compass Clean."

Compass safely and accurately dispenses cleaning solutions, high pressure rinses, and vacuums the surfaces completely dry in 1/3 less time than conventional cleaning methods. Our new state-of-the-art touchless cleaning design allows the operator a clutter-free work station, while providing easy access to tools, chemicals and accessories. Several unique patent-pending features of the Compass allow the operator to clean multiple surfaces easily and safely while increasing productivity, saving time, and reducing labor costs.

**Empower your team to make your facility
"Compass Clean."**

Compass is Ideal for all types of facilities:

Hospitals/Nursing Homes

- Patient Room
- Surgery
- Cafeteria
- Restrooms

Schools

- Gym
- Locker Room
- Auditorium
- Cafeteria/Kitchen
- Classroom

Offices

- Offices/Board Rooms
- Break Room
- Restrooms
- Receiving/Front Entrance/Exterior

30 foot rigid hose (expandable 30 foot modular hose shown on front cover).

Convenient fill hose connects to water source.

Priming pump standard for fast and easy start-ups.

Convenient front control panel provides quick access and safe operation.

Easy to reach tool storage area.

Safety drip tray eliminates water trails.

Chemicals:

CompassShine™ – 3 acid blend restroom cleaning chemical

CompassClean – Heavy duty food service degreasing cleaner

CompassRinse™ – Rinse for spot-free drying

Compass™ Carpet Pre-spray

Compass™ Carpet Conditioning Rinse

- Safe positive feed system eliminates unreliable chemical siphoning. Low profile chemical storage area with a safety cap system prevents back splash and ensures safety. For additional security, optional lock box available.
- Chemical selection valve and accurate metering ensures the correct chemical proportion for better cleaning results without troublesome metering tips. Positive chemical shutoff provides extra safety.
- Large tank capacity for increased operation time. The largest in this category: solution tank 29 gallons, recovery tank 19 gallons.
- Rear mounted hook for wet floor signs.
- Unique ergonomic pressure sprayer with variably adjustable spray pressure allows you to reach awkward and unpleasant areas safely with no danger of splashback. Adjustable pressure saves water, chemical and reduces mess.
Sight gauge for easy reference of solution level.
- Twelve inch puncture-proof back wheels and six inch locking front casters for added stability, safe transport, and greater maneuverability.
- Heavy duty, chemically resistant pump with problem-free priming.

Unique Tools for Every Job

Standard Tools:

- Regular Wand (shown on front cover)
- Wheeled Squeegee
- High/Low Adjustable Spray Gun (shown on front cover)
- Scrub Brush
- Gulper Floor Drain Tool
- Hand Squeegee for Mirror and Glass work
- Door Stop
