

UV-C Light Force

Ultraviolet Sanitizing Machine

PREMIUM SPECIFICATIONS. INDUSTRY INNOVATION. VERSATILITY DISCOVERED.

The UV-C Light Force is a mobile, self-contained germicidal cleaning device that uses proven ultraviolet emitting radiation technology to help reduce and eliminate bacteria, viruses and other pathogens on environmental surfaces. The UV-C Light Force is the most economic and affordable industrial full-sized unit on the market. Sanitize your complete facility with multiple units that are made in the USA and approved by the FDA.

- A** Eight (8) high output lamps positioned octagonally for 360° output
- B** Built-in timer allows for safe operation of the unit
- C** Activate the unit from outside the sanitizing room with provided remote and smart switch
- D** Effective in eliminating 99.9% of pathogens on environmental surfaces
- E** Made in the USA and FDA approved

UVC  LIGHTFORCE

APPLICATIONS:

The Pacific UV-C Light Force is a high UV-C with 99.9% sanitizing output on surfaces. This affordable and low maintenance solution is easily transportable quiet cycle of operation.
