

EXCELS WHEN IT GETS ROUGH.

This machine bridges the gap between a floor machine and an autoscrubber. It really shines when cleaning uneven floors such as tile and grout.

PROFESSIONAL | PIVOT

Designed for superior power on uneven floors.

Versatility is the key advantage to this hybrid machine. The Pivot bridges the gap between a floor machine and a walk-behind scrubber making it more versatile than other machines in this price range. The cylindrical brushes allow it to deep clean difficult surfaces such as tile and grout or uneven floors.

1 Productive

- Floor machine using cylindrical brushes for aggressive cleaning on porous or uneven floors
- Superior scrubbing performance with two counter-rotating brushes and 60 pounds of down pressure delivering 4-6 times the contact pressure of a disc unit

2 Versatile

- Can operate as a traditional swing machine for productivity in open areas, or as a walk-behind for precise cleaning along walls and in corners
- Can be used to maintain or deep clean a wide variety of floors, such as grouted tile, rubber disc and natural stone

3 Usability in mind

- Compact and portable
- Designed for maintenance and deep cleaning in confined areas and on a number of different tiled surfaces
- Simple to operate and maintain
