

# Heavy Duty Upright Vacuum

**A versatile heavy duty upright vacuum cleaner for everyday use.**

#### **Increase user comfort**

The vacuum's spring-assisted design means lighter handle weight and less operator fatigue. The ergonomic handle is designed to fit every operator comfortably.

#### **Robust performance**

This upright vacuum is designed for years of use with its rotationally-molded base and robust foot latch. Three levels of filtration down to .1 micron at 99.99% efficiency help improve indoor air quality.

#### **Productive product features**

With variable height settings, this unit accommodates a variety of floor surfaces. Low profile capabilities allow the vacuum to lay flat to clean under hard to reach areas.

## **Key Benefits**

- Rotationally-molded base is more durable than commonly used injected molded plastic
- Dual motor design with separate vacuum and brush motors deliver powerful, dirt-lifting suction
- Multi-signal indicator light alerts for product and user safety

**800.440.6723**
