Adfinity™ 17ST & 20ST

Automatic Scrubbers

Ideal applications include:

- Hospitals / Healthcare Facilities
- Schools and Universities
- Churches and Religious Facilities
- Hotels
- Commercial Cleaning
- Manufacturing Facilities
- Distribution / Warehouse
- Government Buildings and Installations
- Airports, Train Stations, Bus Depots
- Casinos
- Office Buildings
- Health Clubs

Value Models That Provide What You Need.

Looking for a simple, cost-effective solution for your floors? The new Adfinity™ 17ST and 20ST scrubbers from Advance give you the size, durability and performance you need, at the price you demand. These value-conscious, 10.5 gallon machines are available in 17 and 20 inch cleaning paths.

Designed to increase cleaning productivity, the Adfinity ST models feature multiple pad pressure settings to maximize run time, yet still offer more pressure when cleaning highly-soiled areas. This line of scrubbers also features Smart Solutions™ flow rate, which is engineered to provide the longest run time, over 1 hour, on the floor between dumping and refilling. This saves water and costly chemicals, while increasing productivity. The Adfinity ST scrubbers come standard with an onboard battery charger, which means fewer trips to the maintenance closet, more time on the floor.

One-Touch™ operation makes the Adfinity line of scrubbers easy to learn and easy to use. The ST models are pad assist machines and feature tools-free squeegee blade removal and rotation. The Adfinity ST scrubbers have a wide open recovery tank with removable lid to promote simple, sanitary cleaning.

Adfinity ST scrubbers are a great addition to any green cleaning program. Operating at a sound level of only 65 dB A, this machine is well below the requirements for sound level set by LEED-EB and GS-42 – making Adfinity ideal for daytime cleaning in any facility. With the environmentally-responsible Smart Solutions feature, water and chemical consumption is reduced. The Adfinity ST scrubbers are available with both wet and maintenance-free battery options.

One-Touch™, easy to use control panel

- 1. Scrub Button
- 2. Vacuum Button

- 1. Solution level indicator also functions as solution drain hose
- 2. Large recovery drain hose with pinch flow – regulation

Easy to remove and clean splash skirt

Easy access to batteries

- 1. Easy to use handle lowers squeegee
- 2. Pedal will lower scrub deck to either locked or float position

Large recovery tank with easy access to inspect and clean tank access to float shut-off

Wrap-around ergonomic handle system provides comfort to operator

Easy to access, large recovery tank makes for easy clean-up

Front fill solution tank

Variable pad driven assistance

Center-pivot designed squeegees pick-up 100% water on turns

Edge guide allows operator to clean to wall

Standard splash skirt

FEATURES AND BENEFITS

Simple and intuitive operator controls to minimize training.

Rugged construction with durable components assures years of reliable performance.

Designed to be easy to maintain with open access to all critical systems.

Safety: Operating sound level of 65 dB A meets LEED-EB, GS-42 and other green-cleaning noise standards.

Environmental Impact: Smart Solutions™ calibrates solution flow to minimize use of water and detergent.

Technical Specifications		
Models	Adfinity™ 175T	Adfinity™ 205T
