CLEANMAX[®]

WE MEAN BUSINESS.™

At CleanMax, we know vacuums. In fact, it's all we do. No scrubbers, burnishers or paper towels here, just vacuums. Darn good vacuums. You might think a vacuum is a vacuum. We couldn't disagree more. We obsess over motor performance, machine durability and how to make vacuums someone actually wants to use. Having the right tool for your vacuuming challenge makes all the difference. And we've got it in the CleanMax lineup. From the housekeepers and janitors who use them, to the maintenance crew charged with keeping them running, to the people who pay for them, everyone on your team will be completely satisfied with the decision to clean your facility with CleanMax vacuums.

PROSERIES

The flagship machines from CleanMax, Pro-Series vacuums are built to stand up to the toughest cleaning challenges day after day. With metal components used throughout high-wear areas and a Clean Air System designed to protect the motor and the fan, durability is the cornerstone of these vacuums. Designed to allow a tool-less belt change, or a lifetime belt, maintenance is quick and easy.

All Pro-Series vacuums feature HEPA media bags and filters to trap virtually everything these powerful vacuums suck up.

ZOOM

Meet Zoom... The World's Fastest Vacuum! Weighing only 8 to 9 pounds without the cord, the Ultra Lightweight upright from CleanMax couples extreme maneuverability with tremendous cleaning power to get the job done now! Plus, the Zoom is built to last with tough polycarbonate materials and an aluminum handle tube to ensure this upright will stand up to the toughest tasks day after day.

NITRO

The Nitro is where durability and affordability meet. The CleanMax Nitro upright is jam-packed with long-lasting components like a metal brushroll with replaceable brushstrips, a metal handle tube, a metal cord hook and a metal telescopic wand all designed to ensure dependable service day after day. Plus, this machine features a 40-foot, 3-wire cord with a pigtail for quick and easy cord replacement. The Nitro's powerful motor provides one-pass cleaning on everything from bare floors to carpets, and the ultra-convenient on-board tool arrangement makes quick work of baseboards and other above-floor cleaning. If you're looking for a high-quality vacuum, but you're on a tight budget, look no further than the Nitro.

VALUE**

**BUT DON'T JUST
TAKE OUR WORD
FOR IT...**

“The vacuum holds up very well, and the design makes it very easy and affordable to repair. I love the pigtail feature which allows us to change damaged cords on site instead of having to send them to maintenance. We are seeing an overall increase in profitability by switching to CleanMax vacuums in a reduced upfront cost and substantially lower cost of operation. We are very satisfied with our decision.”

“We love the Zoom for its functionality, durability, price point and low cost to repair and replace parts.”

“We have used many brands of vacuums over the years... more than I can count... everything from high cost to low cost. Since giving CleanMax a try, we have been impressed with how well the vacuums pick up. CleanMax vacuums are priced fairly and outperform much of what I've seen on the market.”
