KAIVAC® NO-TOUCH CLEANING® SYSTEMS

# FOR RESTROOMS AND BEYOND

Hygienically remove soil, germs, and other indoor pollutants that traditional cleaning tools like mops and wipes leave behind. Kaivac's multipurpose No-Touch Cleaning® systems are built to tackle just about any surface and space in any facility type, reducing the risk of disease-causing organisms throughout the building.

Just use the low-pressure fan spray, apply the cleaning solution to the fixtures and the floors and then rinse with clean water from the water tank, and... DONE. It's truly that simple. The powerful, onboard indoor pressure washer flushes out grout lines and tight places that mops can't reach. Finally, just vacuum the floor dry — completely removing water and contaminants from all surfaces, leaving the floor virtually dry and soil free.

Kind of a no-brainer, right?
