THIS DUO PACKS A ONE-TWO PUNCH.

A multi-use machine that provides deep extraction and interim encapsulation technology in one.

Innovation in interim and deep carpet extraction.

Several uses from one machine, the Commodore™ DUO is the pragmatic choice. With just the turn of a switch, easily change from extraction to interim cleaning. Make room for more storage by replacing two machines with one, or improve your cleaning process by adding productive interim cleaning to the mix. Interim cleaning extends the time between scheduled deep extractions and improves your carpets appearance. This machine operates at only 63 dBA which is perfect for daytime cleaning.

1 Dynamic solution

Extraction and interim cleaning in one machine

Change from interim to deep cleaning process at the turn of a switch – no mechanical changeover needed

With the interim method using the iCapsol encapsulating chemical, the carpet is dry and ready for traffic in approximately 20 minutes

iCapsol interim cleaning process extends the time between scheduled deep extractions.

2 Smart design

Efficiently designed for maximum maneuverability

Intuitive Control Panel for ease of use and training

Built-in storage prevents time-wasting trips to get more supplies

Ability to connect accessory wand or hand tool for detail work

3 Immaculately clean

Floating dual 20-inch counter-rotating brushes agitate and permeate the cleaners into both sides of the carpet nap for even, thorough cleaning. No operator adjustment needed

Powerful dual overlapping vac shoes extract soil and solution fast and efficiently in the deep restorative mode; vacuum shoes are equipped with a glide strip to reduce surface friction

iCapsol Interim cleaning process extends the time before re-soiling occurs and reduces wicking

4 Five ways to use DUO technology

Encapsulation – extends time between deep extractions and reduces re-soiling

Deep extraction – deep, restorative cleaning

Pre-spray and rinse – cleaning of surface soiling and extraction of soil in carpet while leaving the carpet free of shampoo or detergent, reducing resoiling

Pre-spray and extraction – deep, restorative cleaning for very dirty carpet

Rinse only – surface cleaning of carpet to eliminate detergent and soap build-up, brightening the carpet and reducing resoiling

Technical data and equipment.

COMMODORE™ DUO

TECHNICAL SPECIFICATIONS

Cleaning path/width	in	20
Solution/recovery capacity	gal	19 / 17
Practical productivity - restorative/interim	sq. ft / hr	13,200 / 6,000
Operating noise level	dBA	63 / 71
Max operating speed - restorative / interim	mph	0.63 / 1.25
Transport speed	mph	2.9
Vacuum	hp. stage	.75 HP, 3
Waterlift	in	83.1
Pump pressure	psi	100
Flow rate - restorative / interim	gpm	1.05 / 0.25
Weight without batteries	lbs	340
Dimensions (LxWxH)	in	54 x 27 x 43

EQUIPMENT

Order No.	Description
1.008-002.0	Commodore™ DUO, 36 V/130 Ah wet batteries, 21A C50 automatic charger
1.008-003.0	Commodore™ DUO, 36 V/225 Ah batteries w/ 21A C50 automatic charger
1.008-004.0	Commodore™ DUO, 36 V/234 Ah AGM batteries, 21A dual mode automatic charger

COMMODORE™ DUO PRODUCTIVITY PACKS

Order No.	Description
1.008-658.0	Commodore™ DUO, Two 36V 3x12 234 Ah AGM batteries w/ 21A dual mode automatic charger
