

KÄRCHER

makes a difference

COMPACT AND POWERFUL.

All-round scrubber with roller brushes.

Take on challenging dirt and grime.

Versatility is the key advantage to this hybrid machine. The BRS 40/1000 C bridges the gap between a floor machine and a walk-behind scrubber, making it more versatile than other machines in this price range. The roller brushes allow it to deep clean difficult surfaces, such as tile, grout and uneven floors.

1 Productive

- Floor machine using cylindrical brushes for aggressive cleaning on porous or uneven floors

2 Versatile

- Can operate like a traditional swing machine for productivity in open areas or like a walk-behind for detailed cleaning

3 Usability in mind

- Compact and portable
- Simple to operate and maintain
