

# ORBITAL

ALL-SURFACE FLOOR MACHINES

ECO-13 – 13" ORBITAL

ECO-15-24VDC –  
15" BATTERY OPERATED ORBITAL

ECO-17 – 17" ORBITAL

### Compact, yet powerful.

The compact, 13" cleaning head allows users to clean narrow spaces, such as theatre aisles, church pews, and more.

- 13" cleaning path
- 1 horsepower motor
- 9/16" orbit
- 10" wheels
- Smooth operation – little to no torque!

### No outlet? No problem.

The ECO-15-24VDC allows you to take your business anywhere. This is the only battery operated orbital machine in the world. How's that for groundbreaking?

- 15" cleaning path
- 1 hour of use per battery charge (two batteries included)
- Only 45 minutes to fully charge one battery. NO DOWN TIME between charges
- 24V system
- On-board computer monitors battery life so you always know when it's time to recharge
- Built-in 4 gallon solution tank approx. (gravity feed or spray option)

### The original smooth operator.

The first in Mytee's line of orbital floor machines, the ECO-17 can be used to scrub, sand, and polish multiple flooring types such as wood, vinyl, epoxy, tile and grout, stone, concrete, and carpet.

- 17" cleaning path
- 1 horsepower motor
- 9/16" orbit
- 10" foam-filled semi pneumatic wheels
- Smooth operation – little to no torque!
