**1991**

ProTeam introduces Team Cleaning® seminars — an organized system to improve productivity, efficiency, quality and safety of cleaning programs

**2002**

ProTeam offers exclusive partnership with the American Lung Association

**2003**

ProTeam introduces the first battery powered backpack to the commercial marketplace

**2009**

ProTeam becomes part of the globally operating Emerson Professional Tools platform

**2010**

ProTeam introduces a new line, the ProGuard Wet / Dry Vacuums

**2012**

ProTeam launches the next generation in cleaning comfort, the Super Coach Pro Series

**2014**

ProTeam launches ProTeam University, ProGen 12 / 15 Units, & improves GoFree Flex Pro battery

**2016**

ProTeam launches new website

**2017**

ProTeam improves GoFree® Flex Pro battery vacuum with longest runtime in the market

**2018**

ProTeam launches FlexFit® Comfort Harness

**2019**

ProTeam launches FreeFlex® cordless/corded upright vacuum

**2020**

ProTeam launches GoFree Flex Pro II battery vacuum

**2022**

ProTeam launches GoFit Series vacuums

## Partners in Indoor Air Quality Education

ProTeam is a proud partner of the American Lung Association. Together, we fight for clean indoor air so that we all can breathe easier. We spend the majority of our time indoors, so breathing healthy air where we live, work and play is critical.

ProTeam is committed to developing innovative cleaning technologies to address indoor air quality concerns and supporting the American Lung Association in their strategic imperative to improve the air we breathe.

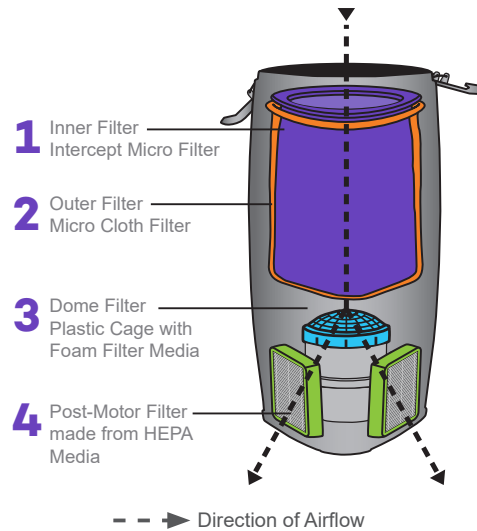

For more information on indoor air quality, call **1-800-LUNG-USA** or visit **Lung.org**.

*\*The American Lung Association does not endorse product, device or service.*

## Cleaning for Health®

### Improved Air Quality

ProTeam vacuums retrieve soil and safely contain harmful particles within a ProLevel Filtration® system, featuring multiple levels of filters, preventing them from being reintroduced back into the environment.

### Filtration

ProLevel Filtration technology better captures microscopic dust that may harm health and trigger asthma or allergies. Most ProTeam vacuums have Four Levels of Filtration, each level designed to sift out smaller and smaller particles. The Intercept Micro® Filter is the first line of defense.

The GoFit series, Super Coach Pro 10/6, and GoFree Flex Pro II have a revolutionary filtration system to reduce emissions. Easy-access, post-motor filter made from HEPA Media, capture and contain microscopic particulates and carbon dust.

The unique ProTeam method of suction-vacuuming cleans carpets, hard floors, and their surfaces without stirring up dust – so the air stays cleaner, the furniture collects less dust, and operators can work without breathing unhealthy air.

CERTIFIED GOLD

# ProTeam GoFit® 10

## 107688\* GoFit 10 w/Xover Telescoping Wand Kit D (107100)

The 10-quart GoFit combines ProTeam's innovative quick-adjust harness with a large capacity triangular shape capable of capturing sizeable debris. Plus, it provides comfort and ease of use as its weight is evenly distributed. That means, no matter how you move, you'll experience better balance.

### Specifications

# ProTeam LineVacer® HEPA / ULPA

## 100277\* LineVacer HEPA w/ High Filtration Vacuum Tool Kit (100163)

The ProTeam LineVacer HEPA / ULPA backpack vacuum is equipped with a unique Four Level® Filtration system which utilizes a certified HEPA or ULPA filter as the last filtration stage. The certified HEPA filter is 99.97% efficient at filtering particulates down to 0.3 microns in size and is designed so that all particulate drawn into the vacuum is expelled through the HEPA filter with no air leaking past it. The LineVacer is ideal for applications when clean air in a controlled environment is critical such as cleaning medical facilities, clean rooms and computer labs. This vacuum meets the EPA's definition of a HEPA Vacuum under the Lead Safety Renovation, Repair and Painting Rule (EPA RRP Rule).
