

Stallion 818 SC

Self-Contained Carpet Extractor

The Stallion 818 SC's maneuverability and deep-down cleaning make it the perfect extractor for restoration of small and medium-sized carpeted areas.

- The Stallion 818 SC blasts solution into the carpet through its three stainless steel jets. The embedded dirt is agitated by the floating brush, which automatically adjusts to different carpet pile heights. The solution and loosened soil are then extracted through a cast aluminum 18-inch shoe by the powerful 1.88 HP vacuum motor.
- 8-gallon solution and recovery tanks minimize the time spent emptying and refilling tanks, increasing productivity.
- The hinged, rotocast polyethylene body provides easy access to internal components, simplifying maintenance.
- The Stallion 818 SC has an accessory connector for use with optional carpet, stair, and upholstery tools.
- Ideal for offices, hotel rooms, and other areas where carpet restoration is required the Stallion 818 SC is a workhorse built for the rigors of heavy-duty commercial use.

Stallion 818 SC Specifications

Tanks

Solution 8 gal (30 L)

Recovery 8 gal (30 L)

Solution Pump

Type 100 PSI, bypass, diaphragm type

Watts 115 (110V), 126.5 (230V)

Vacuum Motor

Type 3-stage tangential

Voltage 120V (240V available)

HP 1.88 HP (1400 watts)

Closed Waterlift 117 in (297 cm)

Brush Motor

Type Permanent magnet

Voltage 120V (240V available)

HP 0.125 HP

RPM 1,200

Construction

Tanks Rotocast polyethylene

Frame Powder-coated steel

Wheels Two 10 in (25 cm) non-marking grey

Spray Jets 3 stainless steel, 1/4-turn snap in or out

Vacuum Shoe 18 in (46 cm) cast aluminum

Brush

Type 16.75 in (42.5 cm) nylon, ABS core

RPM 1,200

Bearings Sealed, protected with string guard

Cord 14-3 SJT, detachable twist-lock, 50 ft

Sound Level 77 dBA @ operator

Accessory Valve Quick-connect, automatic valve actuated

Float Shut-Off Ball type

Dimensions

Height 34 in (86 cm)

Width 18 in (46 cm)

Length 35 in (90 cm)

Weight

Machine 96.5 lbs (44 kg)

Shipping 116.5 lbs (53 kg)

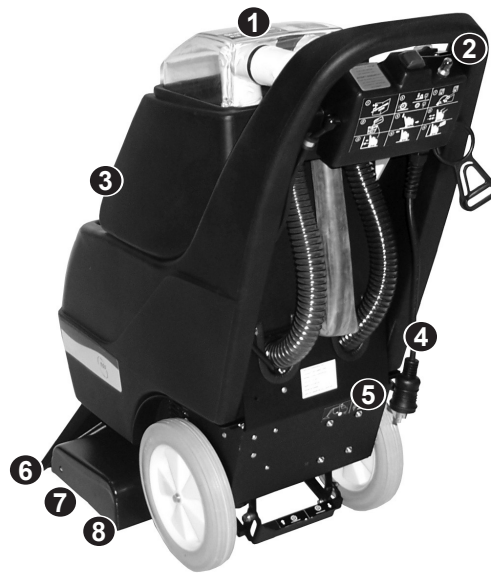

Shipping Class 125

Warranty 3 year limited, 10 years on poly parts

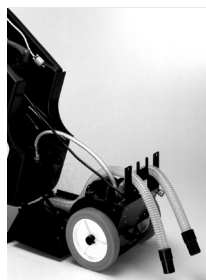

Productivity 1,929 sq ft per hour (179 m²)

An optional 2-jet wand kit (Part #4892879 — sold separately) can be used to clean carpeted stairs and other hard-to-reach areas.

- 1 A foam-sensitive ball-type float protects the vacuum motor from damage.
- 2 Convenient fingertip controls make it easy to activate the pump, vacuum motor, and brush.
- 3 The 8-gallon polyethylene tanks won't dent, crack, or corrode and are warranted for 10 years.
- 4 The twist-lock connector prevents the cord from accidentally being pulled out.
- 5 The accessory connector lets you use optional extraction tools with the Stallion 818 SC.
- 6 The vacuum shoe covers a 18 in wide path.
- 7 Three stainless steel jets snap in and snap out for trouble-free maintenance.
- 8 The floating brush adjusts to different carpet pile heights. Stainless-steel string guard protects the brush bearings.

Access to internal components is as easy as removing two bolts and lifting up the body.

DO NO HARM™

The Stallion 818 SC has a recyclable powder-coated steel frame.

The tank-over tank design keeps the machine balanced throughout operation.

Large rear wheels makes transport easy.
