# SC750<sup>™</sup> & SC800<sup>™</sup> available with EcoFlex<sup>™</sup>System

Walk-Behind Scrubbers

### Simple operation, flexible performance.

Advance's rugged, low-maintenance SC750<sup>™</sup> and SC800<sup>™</sup> scrubbers deliver incredible value on a walk-behind platform. High productivity per tankful allows for 84 minutes of continuous scrubbing, which reduces dump/refill cycles and helps provide fast ROI. The optional EcoFlex<sup>™</sup> System offers the flexibility to clean across the entire cleaning spectrum from green to clean. At the touch of a button one can switch from chemical free cleaning to using an ultra low dilution ratio, and of course detergent can be used at full strength for the toughest of soils. The burst of power feature lets you easily apply more pressure, more solution and more detergent at the touch of a single button. With the flexibility to easily apply the right scrubbing performance for the job, you'll use less detergent, minimize water use and save on cleaning costs.

#### Ideal applications include:

- Routine scrubbing
- Ultra-light to heavy scrubbing
- Entryway cleaning
- Spill cleanup
- Grease removal
- Grout and porous-surface cleaning
- Detergent residue removal (using water only)

#### Green

EcoFlex elevates green cleaning to a new standard – one that promotes good health and hygiene in addition to environmental sustainability. Efficient operation reduces all of the environmental impacts in cleaning from the obvious (water, detergent) to the not-so-obvious (machine runtime and energy use).

#### Clean

Maintaining a clean, healthy indoor environment for you and the people in your building is hassle-free with EcoFlex. Detergent use, pad pressure and flow rate are right at your fingertips. Operators won't have to hesitate to make adjustments for higher sanitary standards, different surface types or unexpected cleaning challenges.

#### LOW-TRAFFIC AREA DIRTY ENTRYWAY HIGH-TRAFFIC HALLWAY POROUS FLOOR

#### **Cost-efficient**

Flexibility means doing more with one machine. You'll save time, use fewer machines, and reduce water and detergent costs. Today's increasing demands for cost efficiency are tough to meet. Now you can do more with less.

Very-quiet 61 dB A sound level allows for daytime cleaning High capacity solution/ SC750 21 gal (80 L)

offer high productivity

through fewer dump/

refill cycles

Soft-Touch<sup>™</sup> paddle system provides superior comfort and safe operation

> A choice of an onboard charger or shelf charger provides convenient charging options

A built-in squeegee hanger makes transport easier and reduces trip and fall accidents.

An integrated debris catch cage traps and collects drain clogging debris.

The ST 26 inch disc model - provides simple operation and robust scrubbing controls.

A self-adjusting splash skirt provides safety against splashing and reduces slip and fall accidents

Gray, non-marking solid tires deliver superior traction

Disc brushes can be clicked off with the touch of a button

One-Touch<sup>™</sup>, integrated scrub pressure and solution flow rate settings:
