

# i-mop<sup>®</sup> XL & XXL Plus **Enhancements**

## 1. i-Balance pivot

Spring loaded balancing mechanism reduces the risk of the machine tipping over and relieves the operator of extra weight.

## 2. Anti-microbial recovery tank.

Construction of the tank reduces the growth of bacteria to avoid bad smells if left unemptied.

## 3. Battery safeguard

Automatically shuts off battery to optimize life, if left on and unused.

## 4. Upgraded battery and charger\* for the XXL.

Accelerated charging time with an upgraded battery and charger on the XXL Plus.

## 5. Squeegee assembly

Quick change assembly allows for easier cleaning and changing of squeegee blades. Easily press the yellow touch points to access the squeegee blades.

## 6. Splash guards

Removable splash allow for quick cleaning and easy maintenance. No tools required.

## 7. Floating ball system

A floating ball in the recovery tank prevents overflowing by stopping the suction of additional residue when full.

\*Battery and Charger are interchangeable with XL Plus machine, batteries and charger.

## Walk-Behind Scrubbers

The maneuverability of a mop with the cleaning performance of a walk-behind floor scrubber. The i-mop family makes it possible to clean any floor surface with freedom of movement and great ease of use.

### Available technologies

Lithium-Ion batteries

# Inside the i-mop Lite

- 1. Simple intuitive controls** make it easy to operate and train.
- 2. Detachable tanks** make it easy to replace or change cleaning solution on the fly or empty recovery water in a sink offering very little down time.
- 3. Powerful 500 RPM motors** offer up to twice the speed of many conventional disk scrubbers.
- 4. Heavy-duty hinge for 360° steering,** making it highly maneuverable in small spaces around obstacles and under furniture.
- 5. Angle shutoff** automatically stops operation when the handle is placed below 32 degrees, helping prevent potential damage to the vacuum motor.
- 6. Rechargeable modular battery packs** for continuous run-time by swapping out and recharging with an extra set of batteries (single battery included, spare sold separately)
- 7. Counter rotating twin brushes with splash guards** push solution toward the center rather than splashing off to the side of the machine.

## Mobile and Accessible Cleaning

Lightweight with a minimal footprint, making it easy to pick up, carry, store and use. Wheels make it easy to push when not being operated.

## Maneuverable Design

Easily clean in tight spaces with 360° movement. Park when needed with the stop and go parking stand.

## Clean Efficiently

With Lithium-Ion battery technology, clean 15,069 ft<sup>2</sup> / 1,400 m<sup>2</sup> hourly with a run time of 45 minutes per charge.

# Inside the i-mop XL Plus & i-mop XXL Plus

- 1. Simple intuitive controls** make it easy to operate and train.
- 2. Detachable tanks** make it easy to replace or change cleaning solution on the fly or empty recovery water in any sink offering very little down time.
- 3. Rechargeable modular battery packs** for continuous run-time by swapping out and recharging with an extra set of batteries.
- 4. Heavy-duty hinge for 360° steering**, highly maneuverable in small spaces around obstacles and under furniture.
- 5. Low profile & folding design** fits under furniture and counters and gets into tight spaces. Deck folds for narrow storage.
- 6. Counter rotating twin brushes** push solution toward the center rather than splashing off to the side of the machine.
- 7. Powerful 350 RPM motors** offer up to twice the speed of many conventional disk scrubbers.
- 8. Floating ball system** prevents water from overflowing to protect the vacuum motor.
- 9. Automatic 32° angle shut off** protects the motor from water damage.

## Quick Change Squeegee

Easy to change squeegee assembly allows for quick daily cleaning or simple routine maintenance of the squeegee blades.

## Store & Transport With Ease

Battery safe guard ensures the i-mop stays off when in storage mode preventing the battery from draining. Wheels make transporting easy between different areas, levels and buildings.

## i-balance Support System

Spring balancing mechanism reduces the weight on the operator and reduces the chances of the machine falling
