

TORNADO TORRENT 28

NO DEBRIS LEFT BEHIND

Item# TW050-W28-U

Productivity

Maximize productivity and efficiently clean large spaces with the ability to cover over 30,000 sq. ft./hr., a foldout side broom with an expandable sweeping path range of 23.6"-28" wide, and battery run time of up to 4 hours!

Innovation

Raising the bar for sweeper technology, the innovative Tandem Roller System features dual counter-rotating brushes that effectively capture everything from large debris to dirt and sand.

Maneuverability

The oversized 14" front wheels and strategically positioned rear caster wheel provide superior maneuverability and effortless handling in tight spaces and over cracks in pavement, thresholds, and uneven hard surfaces.

PRODUCT SPECIFICATIONS

Model TW050-W28-U

MACHINE DIMENSIONS

Dimensions (L x W x H) 59" x 27.5" x 43"

Weight without batteries 128 lbs

Weight with batteries 181 lbs

CLEANING PATH

Side Broom(s) Retracted 23.6"

Side Broom(s) Extended 28"

Main Brush 16"

TANK SYSTEM

Hopper Capacity 10 gal

Tank Construction Polyethylene

SWEEPING SYSTEM

Productivity per Hour 30,139 sq. ft./hr.

Sweeping Technology Tandem Roller System (TRS)

Suction System Yes

Suction Off Switch (for wet debris) Yes

Filtration System Single Stage Filtration with Flat-Pleat Filter

Filter Shaker Manual

Dust Control Over-Throw Filtration System

Sound Level 54 dB(A)

Main Brush Type (2x) Cylindrical

Side Brush Type Rotary

LED Headlight Yes

BATTERY AND CHARGING SYSTEM

Battery Type 12V/75AH (C20) AGM

Run Time 4 hrs

Charge Time 6 hrs

Voltage 24 V

REPLACEMENT ITEMS

Brush Roll 39800

Side Broom 39801

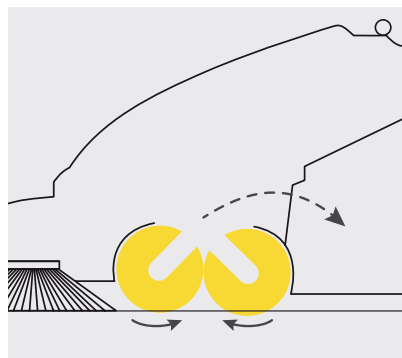

Filter 39802

Set of Keys 39823

Front Rubber Flap 39808

Side Rubber Flap 39809

Square Hood Key 39824

Tandem Roller System

The dual center brush system uses the front brush as a transport roller while the rear brush rotates against the direction of travel to take in objects, leaving no dirt and debris behind.

LED Headlight

The powerful, front-mounted LED headlight illuminates all dust and debris in the cleaning path and allows the user to see in dark areas.

Filtration

The continuously-active dust control motor vacuums dust particles through a flat-pleat filter and separates it from the clean air prior to depositing debris in the hopper.

Side Brush

The foldout side brush effectively cleans corners and along edges, and includes non-marking wheels and the ability to retract upon contact to protect walls and transport through doorways.

Easy Operation

With simple controls and a clearly visible charging indicator with hour meter, minimal training is required.

Safety Lock

The front hood can only be accessed with a panel key, preventing any risks associated with opening the hood while the machine is running.
