

TORNADO TORRENT 43

NO DEBRIS LEFT BEHIND

Item# TW050-W43-U

Productivity

Maximize productivity and efficiently clean large spaces with the ability to cover over 47,000 sq. ft./hr., two foldout side brooms with an expandable sweeping path range of 35.4" - 43" wide, and battery run time of up to 2.5 hours!

Innovation

Raising the bar for sweeper technology, the innovative Tandem Roller System features dual counter-rotating brushes that effectively capture everything from large debris to dirt and sand.

Maneuverability

The oversized 14" front wheels and strategically positioned rear caster wheel provide superior maneuverability and effortless handling in tight spaces and over cracks in pavement, thresholds, and uneven hard surfaces.

43"

Cleaning Path (Max)

17 gal.

Hopper Capacity

47,361 sq. ft./hr.

Productivity

Up to 2 1/2 hrs.

Run Time

PRODUCT SPECIFICATIONS

Model TW050-W43-U

MACHINE DIMENSIONS

Dimensions (L x W x H) 65" x 32" x 47"

Weight without batteries 207 lbs

Weight with batteries 273 lbs

CLEANING PATH

Side Broom(s) Retracted 35.4"

Side Broom(s) Extended 43"

Main Brush 19.7"

TANK SYSTEM

Hopper Capacity 17 gal

Tank Construction Polyethylene

SWEEPING SYSTEM

Productivity per Hour 47,361 sq. ft./hr.

Sweeping Technology Tandem Roller System (TRS)

Suction System Yes

Suction Off Switch (for wet debris) Yes

Filtration System Single Stage Filtration with Flat-Pleat Filter

Filter Shaker Electric

Dust Control Over Throw Filtration System

Sound Level 62 dB(A)

Main Brush Type (2x) Cylindrical

Side Brush Type (2x) Rotary

LED Headlight Yes

BATTERY AND CHARGING SYSTEM

Battery Type 2 x 12V/50AH (C20) AGM

Run Time Up to 2.5 hrs

Charge Time 8 hrs

Voltage 24 V

REPLACEMENT ITEMS

Brush Roll 39813

Side Broom 39801

Filter 39807

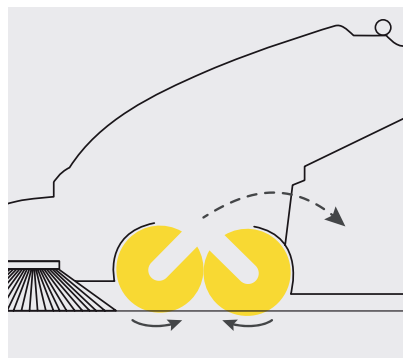

Set of Keys 39823

Front Rubber Flap 39817

Left Rubber Flap 39818

Right Rubber Flap 39819

Square Hood Key 39824

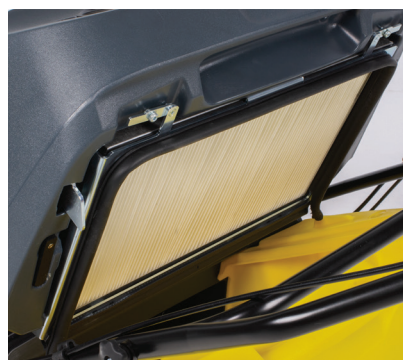

Tandem Roller System

The dual center brush system uses the front brush as a transport roller while the rear brush rotates against the direction of travel to take in objects, leaving no dirt and debris behind.

LED Headlight

The powerful, front-mounted LED headlight illuminates all dust and debris in the cleaning path and allows the user to see in dark areas.

Filtration

The continuously-active dust control motor vacuums dust particles through a flat-pleat filter and separates it from the clean air prior to depositing debris in the hopper.

Side Brush

The foldout side brush effectively cleans corners and along edges, and includes non-marking wheels and the ability to retract upon contact to protect walls and transport through doorways.

Easy Operation

With simple controls and a clearly visible charging indicator with hour meter, minimal training is required.

Safety Lock

The front hood can only be accessed with a panel key, preventing any risks associated with opening the hood while the machine is running.
