## CARPETRIEVER™ 28XP

### LARGE-AREA CARPET VACUUM

This high-performance commercial-duty vacuum makes fast, thorough cleaning of large carpeted areas a reality. The *CarpeTrier* 28XP removes litter and dirt from all types of carpeting. Embedded dirt and dust are shaken loose by the motorized brush and picked up by the powerful vacuum.

The *CarpeTrier* cleans a 28 inch (71 cm) path in one pass. The operator walks a straight line behind the machine, no back and forth movement. Once over does it. The specially designed intake shoe, brush chamber and vacuum tube opening maximize suction from dual one horsepower vac motors. The wide cleaning path provides productivity.

The short wheel base makes it easy to maneuver around furniture, and quick on turns. At the proper brush height setting, the motorized nylon brush helps propel the vac, minimizing operator fatigue.

A convenient hose/wand on the 28XP is mounted within easy grasp. Just remove the wand from its bracket and pull the vacuum shift knob for pick up on stairs or furniture. No assembling of tools required for off-the-floor cleaning.

The filter/collector bag is completely enclosed and prevents dust from getting into the air. The front shroud comes off easily for bag removal or replacement, or for internal maintenance needs.

The *CarpeTrier* is a durable performer that will give years of service.

#### Standard Features Include:

- Attached hose & wand
- Sealed collector bag
- 28 inch (71 cm) cleaning path

To maintain the peak performance of your floor maintenance equipment, buy only genuine **apa** parts and accessories.

Dual vac motors provide great pick-up power. Secondary filters protect vacuum motors from dust. Filters remove easily for cleaning and inspection.

Easy-to-operate controls include separate switches for vacuum and brush motors. Can be operated either forward or reverse.

The efficient top-loading bag permits maximum fill capacity. Both paper and cloth bags are available. The sealed housing ensures dust-free operation.

A built-in hose and wand feature is perfect for quick off-the-floor clean-ups on steps or furniture.

## S P E C I F I C A T I O N S

**Vacuum Motor:** Dual one hp, single-stage, 115v/60 Hz, (230v/50 Hz) 145 c.f.m. (4104 l./min.) at three inch (7.6 cm) vacuum orifice.

**Brush Motor:** .25 hp, split phase, 115v/60 Hz (230v/50 Hz)

**Brush:** 25.5 inches (65 cm) long with nylon spiral bristles.

**Filter System:** Top-filling cloth or paper collector bag collects dust and debris. Secondary foam filters protect vac motors. A polyurethane third filter for exhaust air.

**Bag Capacity:** One bushel (35 l.) reusable cloth or disposable paper.
