A High Performance Walk Behind That Meets Your Most Demanding Needs

Hard Working Mid-Size Scrubbers

- Encore® 24/26 features changeable scrub deck width (24 in. to 26 in.) to fit specific applications.
- 26 in. dual brush floating scrub deck on Encore® L26 Cylindrical allows recovery of debris while scrubbing.
- 20 gallon solution and recovery tanks reduce trips to dump and refill tanks.
- 195, 250 or 330 AH battery packs extend the run-time for increased productivity (Encore® L26 Cylindrical - 250 or 330 AH only).
- Infinitely variable forward and reverse traverse speed with easy-to-reach control dial ("L" Model only).

Rugged Features - Designed To Last

- Patented break-away squeegee eliminates damage and offers no-tool blade change.
- Cast aluminum brush deck (Encore® L26 Cylindrical) with wall rollers for strength and durability.
- Heavy duty transaxle cleans inclines and makes for easy loading and unloading.
- Warranty = 8 years tank and frame, 3 years parts, 1 year labor. No need to read the fine print ... **YOU'RE COVERED!**

Choose disk scrubbing (above) or cylindrical scrubbing (below) with debris pick up to meet facility's cleaning needs.

Changing the scrub deck width on the Encore® 24/26 from 24 to 26 inches is simply a matter of lifting the black knob and rotating the deck.

Easy access to brush replacement and servicing.

Why sweep before you scrub? Consider the Encore® L26 Cylindrical. Debris is picked up while you scrub, which eliminates sweeping. The dual cylindrical scrub brushes clean tough dirt and grease imbedded in grout and cracks.

Service is a Breeze with the Encore® 24/26 Scrubbers

Easy-to-reach and refill batteries
(250 AH or 330 AH)

Large, 20-gallon solution/recovery tanks
meet long distance scrubbing needs.

Heavy-duty 3/4-hp motors provide
more torque to the floor for more
scrubbing power

Squeegee changing without
any tools means more time
scrubbing and less time
maintaining the machine

A full brush selection that
meets your cleaning needs

Bristle skirts provide true
double-scrub capacity

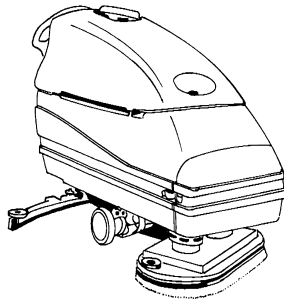

Flood control or off-aisle cleaning is an easy task with the spray and vac wand – a hard working option on the Encore® 24/26.

Encore® L26 Cylindrical counter-rotating brushes remove wood chips, gravel and rock without pre-sweeping. The combination of cleaning chemical and aggressive brushes will clean, disinfect and deodorize filthy otherwise hard to clean multi-surface floors.

ENCORE® 24/26 Midsize Series

Walk-Behind Scrubbers

KEY FEATURES

- Power forward and reverse
- Picks up water even in the tightest turns
- Floating brush deck
- Heavy duty brush drive motors provide aggressive scrubbing
- Impressive warranties

SPECIFICATIONS

	24/26	L26 Cylindrical
Part Number	Multiple part numbers, see price book	
Power Supply	(2) 12 Volt 195 AH, (4) 6 Volt 250 or 330 AH deep cycle batteries	24 Volt D.C. (4) 250 or 330 AH deep cycle batteries
Vacuum Motor	.75 hp (.56 kW) 3-stage tangential discharge	
Brush Motors	(2) .75 hp (.56 kW)	.5 hp (.75 kW)
Traction Motor	.5 hp (.37 kW)	
Cleaning Swath	Variable 24" or 26" (61 or 66 cm)	26" (66 cm)
Brush Down Pressure	0 - 150 lbs. (0 - 68 kg)	100 lbs. (45.4 kg)
Brush Size/Speed	(2) 13" (33 cm) / 200 RPM	4" x 26" (10.1 cm x 66 cm) / 1000 RPM
Traverse Speed (For/Rev)	Variable to 250 ft. (76 m) per minute, forward / 190 ft. (58 m) per minute, reverse	
Max Cleaning Rate	32,000 sq. ft. per hour	
Solution/Recovery Tank	20 / 20 gallons (75 / 75 L)	
Squeegee Size/Type	32" (81.3 cm) / Accu-Track™ w/breakaway feature	39" (99 cm) / Accu-Track™ breakaway feature with 3 position manual lever
Drive Wheels/Casters	(2) 8" x 2" (20.3 x 5 cm) neoprene tread / 4" x 2" (10.1 x 5 cm) dual casters	
Dimensions (L x W x H)	59" x 29" x 43" (150 x 73.7 x 109.2 cm)	
Weight	704 lbs. (319.3 kg) with 330 AH batteries	610 lbs. (276.7 kg) with 250 AH batteries or 710 lbs. (322 kg) with 330 AH batteries
Shipping Weight	953 lbs. (432.3 kg)	
Warranty	8 Years on Polydur® tanks, 1 Year Parts & Labor	

WHO USES THIS MACHINE?

- Manufacturing plants and warehouses
- Beverage, food production plants and bakeries
- Cleaning contractors
- Hospitals, schools

WHAT DOES IT DO BEST?

- Maneuvers well into tight, confined areas
- Reduces operator fatigue with easy-to-operate controls
- Low maintenance provides more productivity and less downtime

WHAT ENHANCES ITS PRODUCTIVITY?

- Battery packs to provide long run time
- Large solution/recovery tanks
- Heavy-duty brush drive motors
- Solution and brushes turn off when machine is not moving

WHAT ADDS TO ITS DURABILITY?

- Heavy gauge welded steel chassis and Corrosion-proof Polydur® solution/recovery tanks
- Industrial quality switches and controls
- Break-away squeegee and non-marking solid wheels

WHAT ARE THE SAFETY FEATURES?

- All electrical circuits with breaker protection
- Safety yellow palm start buttons
- Recovery tanks tilt 90 degrees for battery compartment access
- Recessed key switch to prevent unauthorized use

WHAT ARE THE OPTIONAL FEATURES?

- Off-aisle spray and vac wand
- Parking brake
- Soft casters
- Pad drivers
- Wide variety of brushes
- ESP (recycling)
- Hour meter
