

Growthog

Grout cleaner

The answer for tile and grout cleaning

The Windsor Growthog™ is designed specifically to clean hard tiles and their grout lines quickly and efficiently.

Powerful and Easy to Use.

The Growthog is driven by a 1/3hp motor that is thermally protected to ensure long, trouble-free performance. Its weight is concentrated over the brush for maximum cleaning efficiency, yet at only 49 pounds, it is light enough to control in confined areas. The adjustable handle and 40 foot cord ensures ease of operation.

Designed Specifically for Grout

The Growthog uses a cylindrical rotating brush to remove dirt from groutlines while also cleaning the tile surface. Growthog is perfect for concrete floors and docks, or for stripping finish from all types of hard surface flooring.

Optional Solution Tank

An optional four gallon tank with convenient solution release trigger is available for use with the Growthog.

Performance Features

- To change brushes, simply undo the forward thumbscrew, mount the new brush, and reassemble —it's done in seconds!

- Safety switching system prevents accidental start-ups. If cord is unplugged during use, the GROUTHOG won't start when reconnected until "on" switch is pushed.

- Convenient single lever adjusts handle height to six different positions, including flat-to-the-floor and upright for storage.

- Rear splash guard and forward brush shroud keep cleaning solution on the floor and under control at all times.

Technical Specifications

Model Number:	GH3
Brush Speed:	860 rpm
Motor:	1/3 hp, Thermally protected
Brush Drive:	Fiberglass timing belt
Switches:	Separate on and off safety switches prevent accidental starting when plugged in.
Power Cable:	40 Feet (12m) 18/3 SJTW, vinyl covered
Electrical:	115 volt, 60 Hz
Motor Housing:	
Height:	9 inches (23 cm)
Width:	16.25 inches (41 cm)
Weight:	49 ppounds (22kg)
Brush Specifications	
Part Numbers:	12019 — Universal STANDARD with GH3 14248 — Universal AGGRESSOR (optional)
Construction:	Polypropylene core with nylon brushes
Cleaning width:	12½ inches (32 cm)
Tank Specifications	
Part Number:	GT4
Construction:	High impact crosslink polyethylene
Volume:	4 gallons (15 litres)
Weight:	4¾ pounds (2 kg)

Specifications are subject to change without notice.
