

# Sanitaire SC6200A 14" Auto Scrubber Brochure

## Overview

The 14 Inch Tag Along Scrubber is a compact, powerful, 3.5 gallon, battery-powered auto scrubber designed for cleaning small- to medium-size floors. The 14-inch cleaning path allows you to clean efficiently before refilling the tank. A 24V sealed gel battery and an onboard charger provide 80 minutes of run time and the capability to clean 11,300 square feet per hour. The 16-inch squeegee reduces the need for a blower, and the fold-down handle makes storage easy.

## Features and specifications
